

This book was checked, repaired and rebound in January, 1996. At that time, act 120 appeared to be missing. The notary appears to have bound this volume in numerical order but not in the customary chronological order. The archives has preserved that original order in this current rebinding. The index to this volume is housed in box 18 - S. That index also lists all of the other Robert Legier city acts for 1936.
