

This book was checked, repaired, and rebound in March, 1992. Before this current rebinding, it was in a particularly damaged condition. Therefore several fragments were found in the book, now housed in box 13-S-B, which could not be identified with any specific act. At the time of rebinding, acts 268 and 269 appeared to be missing. Fragments of acts 236, 249, 278, and 286 also appeared to be missing. The index to this volume is bound in with volume 32 of the Robert Legier acts.
